

Butyl Strip Sealants

Description

Izolet Butyl Strips, is a rubber based high performance, permanent adhesive and flexible sealants with the self-adhesive tape, aluminum butyl tape and rope forms. Izolet Butyl, suitable for the reliable and lasting sealing of joints, cracks, seams and overlapping in the entire construction area.

It is flexible, non-hardening, non-drying, non-oxidizing products with excellent adhesion to all types of surfaces.

Applications

- Metal roofing (Steel and Aluminum), gutters, flashings and roof penetrations (solar system, roof lights, dish vs... installations)
- Joining of water proofing membranes and plastic sheets
- Cooling and air-conditioning (HVAC) systems
- Façade constructions
- Silo technology
- Sound deadening applications
- Water sealing applications and gap-filling sealant in body-in-white applications on vehicles
- Sanitary and pipe installations, water manholes and red wells
- Electrical installations
- Precast concrete, container buildings and panel systems
- Box culverts
- Septic tanks and sewage treatments
- General sealing purpose against water, dust, air, seam and gas
- General restoration applications as paste

TECHNICAL DATA SHEET

Benefits

- Permanently adhesive and flexible
- Non-hardening, non-drying, non-oxidizing
- Excellent addition to a wide range of substrates
- Excellent chemical and UV resistance
- 100% solid to keep its volume, non-cracking, non-crumbling
- Long service life
- Available in a variety of size and widths
- Easily trimmed with a blunt tool

Butyl Strip Sealants	Self-Adhesive Type	Aluminum Butyl Tape	Butyl Rope
Density	$\geq 1.35 \text{ gr/cm}^3$	$\geq 1.35 \text{ gr/cm}^3$	$\geq 1.35 \text{ gr/cm}^3$
